## Operator

### Description

Bus drivers transport people to their destination. Whether a demand response or fixed route bus driver, safety is the primary responsibility in dealing with the public. A bus driver not only operates the bus but also responds to emergency situations. Other tasks may be required, such as completing pre-trips and post-trips, incident/accident paperwork and reports, answering customer's questions, providing directions, collecting fares, stocking the bus with needed supplies, emptying trash and other tasks as assigned.

Bus drivers can drive small buses of 2 passengers or larger buses up to 40 passengers. They must show courtesy and a polite demeanor to the customers, as well as assist in reporting any emergencies. Depending on the type of job setting a bus driver may work part-time or full-time, weekends/holidays and extra board. SNTC personnel must follow the rules and regulations that have been established by the Department of Transportation concerning working hours and other issues.

Demand response bus drivers must adhere to a manifest to pick up and drop off passengers and must follow the manifest time frame in order to make their stops. Depending on the shift; full-time, part-time, or extra board, a bus driver may have other required duties.

A fixed route bus driver transports passengers between designated bus stops while adhering to an established time schedule and route. The driver opens the doors to allow passengers to exit and enter the bus; he or she collects fares, reports to supervisor any delays and/or accidents, and reports mechanical problems to maintenance personnel.
